Puyallup, WA 98371
253-841-3378 Fax 253-841-8549

Date: 12/2/11

This letter is to confirm that 16-16-16 consists of:

Monoammonium Phosphate
Urea
Ammonium Sulfate
Potassium Chloride

The nitrogen source is derived from 21% from Monammonium Phosphate, 35% from Ammonium Sulfate and 44% from Urea.

The fertilizer does not contain cyanamid or hydrated lime and conforms to United States and Washington State government regulations.

Sincerely,

Randy Knutson
