JB Signature OREGON GROWN Sun & Shade Mix
(SPECIFICATIONS)

Sun & Shade Blend

- 19.89% Cardinal Creeping Red Fescue
- 19.85% JB 2000 Perennial Ryegrass
- 19.66% JB IV Perennial Ryegrass
- 19.58% Compass Chewings Fescue
- 19.55% Pizzaz Perennial Ryegrass

JB Signature's main attributes are as follows:

- Winter hardy
- Good green color
- Fine blade, dense turf
- Better adaptation for full sun to partial shade areas
- Disease resistant
- More shade tolerant

JB Signature SEED is a blend of 60% Perennial Ryegrasses and 40 % Fine Fescues which are specifically recommended for this area. They have been proven to outperform other grasses in the cool, damp Pacific Northwest climate. All seed has been grown in Oregon. This seed is grown in the rich dark soil of Oregon's Willamette Valley.

These specifications are subject to change.
